Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisidictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the midmonth of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in additon, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Annie J. Mayfield under the direction of Henrietta Duvall, National Center for Social Statistics. Statistical assistance was provided by Robert Terrell.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - December 1974

A total of 972.6 million dollars was paid out of Title XIX funds in December 1974. An estimated 8.2 1/ million persons had medical vendor payments totalling 948.4 million dollars made in their behalf. An additional $3 million in vendor payments were made for screening services under the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT). There were concurrently 327,660 persons enrolled in Health Maintenance Organizations whose premiums were paid out of Title XIX funds.

Persons Served

More than half (55.3 percent) of the recipients for whom vendor payments were made were members of families with dependent children. AFDC children under 21 and other Title XIX recipients under 21 represented about 38 percent of recipients. Twenty-four percent of the recipients were eligible on the basis of age 65 and over. Seventy-six percent of the medicaid recipients were also recipients of maintenance assistance in the form of money payments. Among members of AFDC families, ninety percent of the recipients were also receiving money payments.

Amounts of Payments by Groups of Persons Served

Thirty-six percent of payments to medical vendors were for persons whose eligibility was based on age 65 and over. Thirty-three percent were on behalf of members of AFDC families. The proportion of payments (23.9 percent) on behalf of permanently and totally disabled recipients was greater than the proportion of medical payments for either adults or children in families. Among members of families with dependent children under 21, eighty-five percent of payments for medical care were made on behalf of persons also receiving money payments, however, for the aged 65 and over, seventy-three percent of medical vendor payments were on behalf of persons who were not receiving maintenance assistance. Medical vendor payments for non-money payment aged recipients accounted for more than one-fourth (26.2 percent) of the total vendor payments. It should be noted that a large amount of these payments is probably made to medical institutional facilities which provide the basic necessities (food, shelter, etc.) and thus the recipients are not authorized for money payments for such needs.

Payments by Type of Services

Sixty-nine percent of the medical vendor payments were made for inpatient services, i.e., hospitals (32.4 percent), skilled nursing facilities (18.3 percent), and intermediate care facilities (18.2 percent). Among other

services, physicians' services and prescribed drugs represented 10.2 and 7.0 percent of total payments, respectively.

Screening Services

Fifty States reported 124,928 children screened under the Early and Periodic Screening, Diagnosis and Treatment Program. Fifty-three percent of the children screened were six years of age and older. Fifty-one percent of children screened had referrable conditions uncovered and about 90 percent of those with conditions uncovered were referred for diagnosis and/or treatment.

1/ Includes estimates for Colorado and Massachusetts which were extrapolated from previous reports.

Note: Estimates are based on the average monthly amounts paid per recipient by State.

ANNOTATIONS

1. The following definitions apply to symbols appearing in the detailed tables:

   --- indicates no data reported.
   *** indicates that the percent was not computed because the base was too small.

   Z indicates that the percent was less than 0.05.

2. Arizona has no title XIX program and is excluded from the tabulations.

3. Colorado did not report recipients and payments by maintenance assistance status and basis of eligibility of recipients and is excluded from all applicable tables.

4. Massachusetts reported recipient data for the blind only.

5. For Montana, detailed data were not available for Tables 4, 6-9, 12 and 13.

6. In addition to Colorado and Massachusetts; Nevada, Pennsylvania and Utah are excluded from tables 10-13 because children and adults in AFDC families were not reported separately. Connecticut, Illinois, Kansas, Minnesota and West Virginia were able to report AFDC recipients separately but were unable to differentiate medical vendor payments between adults and children in AFDC families. These States are excluded from the total percentage computation in Table 11.

7. Premium payments into the SSA system for aged recipients in Georgia, Maine, Vermont, and West Virginia include payments for the disabled.

8. Data were partially estimated for North Carolina, New York, Oregon, South Dakota, and the Virgin Islands.

9. For Utah, all adult recipients i.e., aged 65 and over, blind and disabled are reported under money payment not authorized even though some may be SSI recipients. Similarly, Nevada reports all disabled recipients under money payment not authorized.

10. In California, there were 94,672 persons in AFDC families for whom it was unknown whether they were adults or children. These recipients and the $545,470 in vendor payments were distributed in the same proportion as the known amounts.

11. Minnesota included HMO recipients and premium amounts in the data in Tables 2-14.

12. North Carolina reported Other Title XIX recipients under age 21 as AFDC children.

13. For Pennsylvania, Other Title XIX recipients are not differentiated by age.

14. Vermont excluded $27,212 for family planning services from the data reported in Tables 2-4, and 6-14.

15. For Virginia, vendor payments do not include $148,128 for transportation and $1,012,772 for cost settlement and retroactive adjustments in Table 3.

16. For New Mexico, vendor payments include $14,032 for screening costs.

Annotations specific for Table 5 (Type of Service)

17. For California, the data for inpatient services include estimates for four of the State's 58 counties.

18. For Connecticut, expenditures for other practitioners', clinic, laboratory and radiological, home health and family planning services are included in other care. Expenditures for general hospital include $288,171 paid to mental institutions.

19. Expenditures for Kentucky include reimbursable cost adjustments of $116,098 to hospitals and $451,716 for nursing homes. The total vendor payments for Michigan exclude accounting cost adjustments of $20,591. The Virginia data include $1,012,772 in cost settlements and retroactive adjustment. Hospital costs for New Mexico include $163,883 in retroactive adjustments. In Rhode Island, expenditures include retroactive rate adjustment of $402,384 for nursing home and intermediate care facility services.

20. For North Carolina, physicians' services include optometrists.

21. For Montanta, data include $212 which is not distributed by type of service.

22. South Carolina expenditures for skilled nursing facility services include $18,276 for mental institutions.

23. For Virginia, family planning expenditures are included in other types of services.

Annotations specific for Screening Tables 15-20

24. States omitted from the tables did not report on screening services for June 1974.

25. California reported 65,414 individuals receiving comprehensive physical examinations in addition to the screening data.

26. For Georgia, EPSDT screening data related to specified conditions are excluded from the tabulations.

27. Screening payments for Idaho, Illinois, New York, Pennsylvania, and Texas are not reported separately for ages under 6 and 6-20.

28. In Indiana, the 209 persons screened during the month with referrable conditions uncovered were not referred for treatment because they were either currently receiving treatment for the condition or parents did not desire treatment. Similarly, the 5,942 persons not referred in Texas received immediate remedial or prophylactic care by the person performing the screening.

29. Data for North Dakota, Ohio, District of Columbia, Minnesota, Rhode Island, Vermont, and the Virgin Islands are largely estimated and/or incomplete.

30. For Rhode Island, data include 91 newborns for whom payments are reflected in physicians' or hospital services and 306 persons receiving comprehensive examinations for whom detail information was not available.

31. Data for Colorado exclude payment to Colorado Dental Society.

32. Payments for screening services were not reported by the District of Columbia, Georgia, Maryland, Michigan, Puerto Rico and the Virgin Islands.

QUARTERLY HIGHLIGHTS
OCTOBER-DECEMBER 1974

A total of $2,983,447,000 was paid out of Title XIX funds during the quarter ended December 31, 1974, an increase of 5.7 percent over the previous quarter. Vendor payments totalled $2,904,035,000; and an additional $25,810,561 represented premium payments to health maintenance organizations for an average monthly number of 308,578 enrollees.

Two billion dollars or 69 percent of the total vendor payments were made to inpatient facilities: general hospitals ($821,952,000); skilled nursing facilities ($556,152,000); intermediate care facilities ($523,030,000); mental hospitals ($109,982,000). In addition $295 million and $197 million were expended for physicians' services and prescribed drugs, respectively.

The average monthly number of recipients for whom vendor payments were made during the quarter was 8,225,000; a national increase of 345,000 (4.4 percent) over the previous quarter. Of the total number of recipients receiving medical services, the largest increase was reflected for members of families with dependent children under 21 and permanently and totally disabled recipients. These recipients increased from 4,235,000 to 4,497,000 (6.2 percent); and from 1,063,000 to 1,123,000 (5.6 percent), respectively. The number of other Title XIX recipients increased from 571,000 to 580,000 (1.6 percent); and the number of aged recipients increased from 1,961,000 to 1,974,000 (0.7 percent). There was no change in the number of blind recipients over the previous quarter. Thirty-eight States reported an increase in the number of recipients during the current quarter over the previous quarter (July-September). States reporting the largest increases in numbers of recipients were New York, Louisiana, California, New Jersey, Florida, Virginia, Maine, Kansas, Texas, Michigan, Tennessee, Kentucky, South Carolina, South Dakota, Washington, Oregon, Indiana, Hawaii, Georgia, Minnesota, Alabama, Arkansas, and Iowa.

The national average monthly medical vendor payments increased from $910.4 million to $966.7 million, a monthly increase of $56.3 million (6.2 percent) over the previous quarter. Although there was no change in the average monthly number of blind recipients from the previous quarter, the average monthly vendor payments for these recipients declined from $6.7 million to $6.5 million (3.2 percent). The average monthly medical vendor payments made on behalf of the aged recipients increased slightly from $353.5 million to $356.4 million (0.8 percent); payments for the permanently and totally disabled increased from $203.9 million to $225.2 million (10.4 percent); payments for members of families with dependent children increased from $292.6 million to $317.8 million (8.6 percent); and payments for other Title XIX recipients increased from $53.7 million to $60.8 million (13.2 percent).

Seventy-five percent of the average monthly number of recipients were authorized to receive maintenance assistance in the form of money payments, however only 52 percent of medical payments were on behalf of money payment recipients.

A total of 408,923 children was reported as receiving screening services under the Early and Periodic Screening Diagnosis and Treatment Program (EPSDT) during the quarter. Payments for screening services totalled $9,596,799.

HIGHLIGHTS
CALENDAR YEAR 1974

During calendar year 1974, a total of $11.3 billion was paid out of Title XIX funds. Vendor payments alone of about $11 billion were expended on behalf of an estimated average monthly number of 8.1 million recipients. Of the five eligibility categories, members of families with dependent children under 21 constituted 4,369,000 recipients, more than half (54.1 percent) of the total. However, payments made on their behalf amounted to an average monthly amount of $298,457,000 or less than one-third of the total. The second largest category of recipients were the aged 65 and over who numbered 1,969,000 (24.4 percent). Payments on behalf of the aged amounted to $343,565,000, more than one-third of the total. Seventy-three percent of the payments for the aged were on behalf of non-money payment recipients. The average monthly number of recipients eligible on the basis of permanent and total disability was 1,076,000 with an average monthly payment of $210,096,000. For other Title XIX recipients, the average monthly number was 604,000 with an average expenditure of $53,945,000. The number of and payments on behalf of blind recipients represented less than one percent of the totals.

An additional $97.6 million and $24.9 million were paid out of Title XIX funds to health maintenance organizations and for costs of screening services under the Early and Periodic Screening Diagnosis and Treatment Program (EPSDT), respectively.

1/ Arizona had no Title XIX program during calendar year 1974. Guam is omitted due to incomplete reporting.
2/ Total includes $248,503 not distributed by type of service: New Hampshire, $199,699 and Montana, $48,812.
3/ In some States, two or more types of services may be grouped under one class, as in Connectucut where other care includes other practitioners', clinic, laboratory and radiological, home health and family planning services.
4/ Includes general assistance medical vendor payments.

1/ Arizona had no Title XIX program during calendar year 1974. Guam is omitted due to incomplete reporting.
2/ Total includes $248,503 not distributed by type of service: New Hampshire, $199,699 and Montana, $48,812. These amounts are excluded from the percentage distribution.
3/ In some States, two or more types of services may be grouped under one class, as in Connecticut where other care includes other practitioners', clinic, laboratory and radiological, home health and family planning services.
4/ Includes general assistance medical vendor payments.
Z indicates that the percent was less than 0.05.
